

IT finance for Business Users: The benefits

Why pay over time for technology?

With budgets becoming tighter, finance is an increasingly popular way for businesses to fund rapidly depreciating assets like IT. Syscap offers you a range of flexible, tailored finance solutions so that you can get the technology you need today, and upgrade easily in the future.

AT-A-GLANCE

There are many reasons to choose finance from Syscap, including:

- Improved cashflow and instant ROI
- Tax savings
- Easy upgrades
- Software financing
- Unaffected bank lines
- No need for security
- A straightforward solution
- Freedom to choose

When you fund your IT with Syscap, the UK market leader, you work with the most innovative, customer focused specialists in the business. You will also benefit from the considerable business advantages associated with flexible financing. Being independent means we have consistently delivered the strongest underwriting support in the business, so we are well placed to finance any type and any size of IT acquisition. Benefits of financing IT with Syscap include:

Improved cashflow and instant ROI

By making equal monthly payments over the duration of the finance agreement, you can spread payments over the useful life of your equipment, rather than having to find the capital up front. This way, you can generate instant return on investment.

Tax savings

Monthly payments to Syscap qualify as a trading expense and are therefore tax deductible.

Easy upgrades

You can expand or upgrade systems as the need arises with our Systems Change Option, often without an increase in monthly payments.

Software financing

As well as hardware, we will fund software, support, training and other intangibles that are integral to any IT acquisition – something which few providers offer.

Unaffected bank lines

Our finance solutions have no effect on your other borrowing options

No need for security

Most of our finance options do not require you to pledge personal or company assets – the equipment itself is its own source of security.

A straightforward solution

IT finance with Syscap is easy. Once a proposal is submitted, we work to respond within 24 hours. All we need is for you to sign one contract and we take it from there.

Freedom to choose

Because we're independent, you can choose a combination of technologies and avoid being tied in to any one supplier.
